

# Abundance Paradigm

## Extract from novel: *Spirit of a Pathless Land*

### Finance

- ~ Abolish the corporate, debt based fractional reserve banking system.
- ~ Delete all debt produced from that system.
- ~ Delete all debt bond values created by birth certificates and discontinue the practise of registering the legal name as a corporation and surrendering it to the private Crown Corporation as a surety to provide revenue for the World Bank.
- ~ Shut down the International Monetary Fund, the World Bank and all Private Central Banks.
- ~ Replace them with a democratic, transparent and accountable financial system that provides debt-free money with public management.
- ~ Iron out the bias inconsistencies between foreign exchange rate values.

### Revenue

- ~ Introduce and maintain 15-40% income tax rates for corporations and businesses across the board.
- ~ Abolish all other taxes.
- ~ Ensure that there are no loopholes so big businesses cannot be exempt.
- ~ Grant small businesses (1 or 2 owners) tax exemption status.

## Health

- ~ Treat preventative medicine as important an approach as disease or symptom based medicine.
- ~ Acknowledge that nutrition and exercise are pivotal for the maintenance of good health.
- ~ Promote and fund traditional health practises such as:  
Ayurveda, Celtic Herbal Lore, Naturopathy, Indigenous Healing & Herbalism, TCM, Acupuncture & Massage, Spiritual, Energy and Quantum Healing.
- ~ Hold the pharmaceutical, medical and surgical systems to legal account for provable present and past medical misadventures.
- ~ Re-structure the medical training curriculum to represent ALL forms of health and well-being practices.
- ~ Revisit the birthing occasion entirely to make sure that every child born in care has a nurturing environment, quality time with parents, and clinical intervention only when necessary.
- ~ Overhaul the vaccine industry with a completely new understanding of how the immune system works based on 21st century science and nutrition, not on dark aged superstition or eugenics based population control. Immediately abolish vaccines that cause death, brain damage, or extreme dangers to health.
- ~ Ban the addition of fluoride to municipal water supplies.
- ~ Abolish the Psychiatric Diagnostic and Statistical Manual as it's just speculative fiction.
- ~ Overhaul the cancer 'industry' entirely to reflect methodology that cures.

- ~ Begin procedures to wrest back control of the medical and pharmaceutical “industries” to the public state.
- ~ Audit over-prescription of pharmaceuticals due to excessive doses listed on prescription charts.
- ~ Ban prescription of brain and nervous system medications to children under 14 years old, who don't have a physiological need for them (e.g: children with epilepsy).
- ~ Ban use of anti-psychotics as first options for dementia, disability and psychiatric conditions.

## **Social Services and Employment**

- ~ Redefine 'Society' according to the broad humanitarian measure of 'Varied Cultural Identities'.
- ~ Take advantage of the new Revenue structure set out by this document to empower small businesses and sole traders across the land to create more diverse employment opportunities and benefit their local economies and communities.
- ~ Aim to restructure the disparities in class based employment. That is, redefine salaries to be based on objective skill levels not old caste system paradigms of priest-pauper, master-servant etc.
- ~ Create a new wave of employment opportunities based on the cultural paradigms of indigenous culture.

## **Broadcasting**

- ~ Give the public democratic state more power over broadcasting standards and quality control.

- ~ Refuse to have media dictated to the country by the 5 global media corporations controlled by the oligarchical cabal that control 90% of what we see, hear and read.
- ~ Give consumers a choice not to be dictated to by the agenda of the global oligarchy, who serve up continual propaganda and lies to maintain establishment power.
- ~ Utilise truly alternative media sources to provide a more balanced representation of information.
- ~ Continuing and expanded support of local broadcasting and indigenous cultural broadcasting.

## **Education**

- ~ Ban single sex schools.
- ~ A new curriculum drafted with abstract pseudo-scientific theory and propaganda replaced by cosmopolitan, universal and vocationally based teachings.
- ~ Promotion of practical, common sense and experiential teaching over 'academic' and 'intellectual' programming.
- ~ The use of the words 'subjects' and 'classes' to be replaced by the words 'topics' or 'sessions'.
- ~ Make indigenous culture and language a key part of the curriculum.

## **Foreign Affairs and Trade**

- ~ Respect global Indigenous customs. Honour multi-cultural diversity.
- ~ "Do unto other countries as we would do unto our own"
- ~ Stand up for our rights as integral sovereign universal beings and

*disassociate the country from the commonwealth, the united nations and all other such new world order organisations.*

*~ Acknowledge the “global war on terror” is make believe and perpetuated by the real terrorists.*

*~ Recognize false flag psy-op operations such as 9-11 and seek international justice proceedings against the true criminals.*

*~ Trade according to ethical guidelines and actual fair trade protocols. Promote locally sourced produce and farmer's markets.*

*~ Exercise government veto power over corporations that trade illegally.*

## **Justice**

*~ 'Prevention' rather than 'correction'.*

*~ Police the legislators, and corporate policy-makers according to the maxim, 'the pen is as harmful as the sword'. Prosecute them where necessary and repeal illegal laws and policies.*

*~ Shift the focus from low class petty misdemeanours to high class fraud and crime syndications.*

*~ Ensure the maximum transparency and accountability of this department.*

*~ Delete the entire national legislation and re-write it according to the main principles of Natural Law, Universal Law and Common Law.*

*For example:*

*“If a particular man-made law is in harmony with Natural Law, then it follows logically that it is redundant, since it is stating a truth that is inherent, pre-existing and self-evident. Therefore it is both irrelevant and*

unnecessary.

If a particular man-made law is in opposition to natural law, then it follows logically that it is both false (incorrect) and immoral (harmful), or in other words, wrong. Therefore it cannot be legitimately binding on anyone.” (Mark Passio)

## **Corrections**

~ Phase out the obsession with punishment and overhaul the department to reflect the principle of rehabilitation.

## **Housing**

~ Make home mortgages interest free.

~ Outlaw the 'monopoly' game by banning multiple ownership of buildings and land for the purpose of profiteering.

~ Accept the mental redefinition that by the ultimate equation we don't own land, we are the guardians and caretakers of land.

~ Promote eco-housing with such measures as making solar panels mandatory where they are effective. Utilise the most environmentally friendly building materials possible, including recycled materials. Use natural plant fences rather than timber fences. Catch rainwater. Solar heat water.

~ Encourage every householder to plant fruit and vegetables on their property. Create incentives for this. For instance 50 square metres of fruit or vegetable plants receives annual 25% rate discount. 100 square metres = annual 50 % discount etc.

## **State Services**

- ~ *Make Government a public organisation not a private corporation.*
- ~ *Prevent privatisation of national assets and state services.*
- ~ *Take back privatised state services by mandate of universal law.*
- ~ *Define the State as a sovereign autonomous republic in a new constitutional document.*
- ~ *Remember that politicians are servants of the people, not vice versa.*

## **Labour**

- ~ *Reflect universal abundance with universal basic income.*
- ~ *Better efficiency and effectiveness across all sectors with greater resource sensitivity.*
- ~ *Bring equality to workplace roles and wages by ironing out the class discrimination salary game.*
- ~ *Mandate for an end to racial and sexual discrimination.*
- ~ *Transition to a 3-4 day working week model with higher wages and better working conditions across the board.*

## **Commerce**

- ~ *Note that the etymology of commerce is 'com = together' and 'mercis = merchandise'. Merchandise together.*
- ~ *This implies communally accessible goods and services that are reasonably priced.*
- ~ *Encourage product diversification and discourage monopolies to create a more fluid market.*

~ Replace fixed pricing with negotiable pricing including barter of goods and services.

## **Immigration**

~ No comment.

## **Transport**

~ Nationalize and de-privatize the fuel industry.

~ Roll out the engines that run on a fraction of the petrol.

~ Roll out the electric, water and vegetable oil fuelled motors en masse.

~ Provide more public transport options.

~ Encourage car-pooling and ride-sharing.

## **Information Technology**

~ Promote open source operating systems like Linux.

~ Promote open source software sharing for more effective and efficient communities.

~ Design and implement new databases for antiquated State and Social service databases.

~ Ban sweeping 'big brother' type information gathering and only use surveillance operations when criminality is involved.

~ Criminalize surveillance back-doors in operating systems, software and internet platforms.

~ Maintain the freedom of information sharing on the internet according to basic constitutional rights.

- ~ Work with companies to help make the internet a safer place.
- ~ Follow the tests and actions specified in 'Ideals' for the Department of Communications.

## **Communications**

- ~ Facilitate thorough scientific research and testing into the safety or danger of Wi-Fi modems, 3&4G phones, wireless devices and cellular frequency transmission towers and GWEN towers.
- ~ If tests prove that these devices, towers, and frequencies detrimentally affect health and well-being, enforce telecommunications companies to fund emergency research into measures for making them safe, bio-compatible and non-carcinogenic.
- ~ Where intervention fails, ban the products or frequencies that are proven to be carcinogenic or generally detrimental to health.

## **Indigenous Affairs**

- ~ Honour indigenous people as sovereign and autonomous and always conduct meetings with indigenous people with cultural respect and understanding.
- ~ Honour the universal right of indigenous people for autonomous self-governance.
- ~ Elevate the status of the department so as that it becomes mandatory for all other departments to seek their advice on any important matter relating to indigenous people.

## **Police**

- ~ Reflect the new changes of the justice department (in this template)

throughout the police department.

~ Reinforce to police that they represent the people, not the state.

~ Ensure that inappropriate and excessive force equals immediate loss of job.

~ Give the police more of a mandate to go after the real criminals. The predominantly white oligarchical gang of banks, corporations, dynastic families and institutions that fraudulently control the vast majority of the world's money.

~ Use police to hunt down and help close down this gang that criminally dominate finance and commerce; manipulate national currencies and economies; control the media and command the Earth's resources.

### **Internal Affairs**

~ Ensure that government policies and procedures are democratic, transparent and accountable.

~ Ensure they are actioned and implemented ethically, for the benefit of the people.

~ Align national affairs with universal nature.

### **Civil Defence**

~ Keep the status quo.

### **Veterans Affairs**

~ Encourage social and rehabilitation programmes for veterans.

~ Implement more programs that engage seniors with their community and with the youth.

~ Set up a new department called;

'The Department of Senior Citizens',

run by senior citizens to uphold the rights of senior citizens.

## **Agriculture**

~ Transform agricultural practises to reflect modern scientific understanding about the widespread ecological damage from monoculture and the negative human health effects of agrochemicals.

~ Encourage a rapid shift toward permaculture, organic and diversified practises.

~ Grant incentives and tax breaks for companies looking to transition to ecologically sustainable practises.

~ Educate everywhere about the importance of working together with the natural ecological symbiosis of the environment.

~ Convert to free range farming.

~ Ban factory, cage, indoor and barn farming and penalise cruelty to animals with the force of law.

## **Forestry**

~ Utilize a greater variety of clay, brick, concrete, textiles and recycled resources in the building industry.

~ Promote eco-housing with less reliance on timber.

~ Rehabilitate old forestry land with food forests.

~ Criminalize deforestation.

## **Women's Affairs**

- ~ Create a Women's Welfare League with advisory council status.
- ~ Acknowledge that common cultural traditions are unfairly patriarchal and have marginalized female rights.
- ~ Work constructively to rebalance the resultant inequality across every sector of society.
- ~ Aim for equal gender representation across the board in the employment sector. Make this measure mandatory in politics and government.

## **Defence**

- ~ Totally ban all chemical and nuclear weapons and organise safe disposal, deconstruction and containment of them.
- ~ Entirely ban weapons of mass destruction including electromagnetic and laser weaponry.
- ~ Implement the dual defences of neutrality and pacifism as much as is realistically possible.
- ~ Total transparency and accountability of funding and spending.

## **Tourism**

- ~ Promote the country as peaceful.
- ~ Market organic farming and permaculture; native forest walks, GM free and nuclear free, for what they're worth.
- ~ Aim to enhance the environment by working toward a clean atmosphere and an unpolluted ocean. These measures will increase tourist numbers, create a huge job market and ensure environmental protection.

## **Youth Affairs**

- ~ *Quit stealing children from their parents for ridiculous reasons.*
- ~ *In cases of divorce or separation, give any child support funds directly to the solo parent, not to the state.*
- ~ *Update the school curriculum as per Education department guidelines, for the sake of the youth.*
- ~ *Tailor education to youth, not youth to education!!!*
- ~ *Form paid youth groups as advisory think-tanks to schools and government.*
- ~ *Make school optional and encourage home schooling or local community schooling alternatives.*
- ~ *As per Communications Department, research and implement scientifically certified protective measures for the use of Wi-Fi modems, 3&4G phones, wireless devices and cellular frequency transmission towers.*
- ~ *Ensure this research and the provision of remedial technology is entirely funded by the telecommunications industry.*

## **Statistics**

- ~ *Record less, less is more.*
- ~ *Speak to people about issues rather than analysing disproportionate charts and numbers.*

## **Land Information**

- ~ *Discontinue the department. Put a map of the country on the wall of every other department.*

## **Energy**

- ~ Implement a 15 year project to discontinue nuclear energy and transfer to Free energy (Tesla energy).
- ~ Refer to [keshefoundation.org](http://keshefoundation.org) for more on this exciting project.
- ~ Implement 15 year plan to discontinue fossil fuel energy and replace it with free energy and renewable energy.
- ~ Install marine hydro electricity plants. (In combination with the new marine farms)
- ~ Make solar panels mandatory in new roof manufacture.
- ~ Promote eco-housing in general.
- ~ Provide services for recycling and regeneration of waste across the board.
- ~ Research the recycling of chlorofluorocarbon and toxic greenhouse gases into sources of energy.

## **Fisheries**

- ~ Fund and facilitate marine farming.
- ~ Invest in fresh water aquaculture and aquaponics.
- ~ Fund marine and freshwater rehabilitation and replenishment programmes.
- ~ Ban all unsustainable corporate fishing practices. Especially the big genocidal drag-nets.
- ~ Impose trade embargoes on any countries that continue to practise unsustainable fishing practices, or kill whales or dolphins.
- ~ Prevent fishing in areas when and where fish are spawning, and the taking of juvenile fish.

~ Employ a government watchdog representative on every corporate fishing boat.

~ Transfer funds from the Defence Department to pay for far more oceanic monitoring vessels such as Sea Shepherd.

## **Research Science and Technology**

~ Shift the focus from laboratory research to forest and field research.

~ Curb GM madness with the recognition of the worlds natural abundance. Focus more on crop bio-diversification, organic and permaculture methods for healthier yields.

~ Stop animal testing and vivisection.

~ Ensure all research science and technology practises and equipment meet ethical and environmental safeguards.

~ Ensure that all research science and technological activities are for the greater benefit of people and the environment.

~ Stop all nano technology.

~ Ban electronic ID chips in human beings. Ban electronic chips and nano technology in medications. Ban the use of electronic chips in the body or brain unless for the express purpose of improving someone's impaired quality of life, with consent, or saving their life.

~ Ban weather modification projects like HAARP.

~ Ban GWEN towers and take them down.

~ Ban chemtrails.

~ Decommission the Hadron Collider and similar projects (or cut trade with countries that have commissioned it/them).

~ Follow the tests and actions specified in 'Ideals' for the Department of Communications.

### **Consumer Affairs**

~ Encourage product diversity.

~ Promote local markets.

~ Ensure precise product labelling is mandatory, including GMOs and place of origin.

~ Hold corporations criminally accountable for false marketing practises.

### **Customs**

~ Cease importing and exporting products where enough are grown and produced locally to meet demand.

~ Research other methods such as quantum field bio-resonance imprinting for sanitisation purposes to curb reliance on chemicals.

### **Conservation**

~ Create an environmental protection department within the police force.

~ Empower this department to prosecute industries that ignore conservation preservation measures and safeguards.

~ Ban poisonous toxic chemicals.

~ Provide and educate about ecologically sound alternatives.

~ Use humanpower (and create jobs) to work on conservation areas and confront pest epidemics.

## **Local Government**

- ~ *Bridge the divide that separates local government from local citizen.*
- ~ *Bridge the divide between local and regional governments and central government.*
- ~ *Remove corporate funding and sponsorship from politics.*
